DESIGNED IN DENMARK

The worlds most sustainable
fashion accessory brand!

Roadmap **iPhone 2022**

Product **Lineup**

The Njord byELEMENTS iPhone 2022 Lineup has been developed with **sustainability AND reaching a larger demographic** in mind.

New Pricepoints

The iPhone 2022 Line-up will be available in 4 different pricepoints, aiming to reach a wider demographic.

New Materials

Our signature Premium Icelandic Salmon Leather line up will be expanded to include iPhone 2022!

However we're also introducing other materials to the line-up which also have unique and amazing tactile feel and are just as sustainable.

New Colors

The new premium sustainable materials allow us to bring a wider variety of beautiful and fashionable colors. Who is the accessory now?

More Sustainable

Sustainability designed and engineered from the ground up. Every part of the product has been carefully created evaluated for matching our sustainability vision.

Thinner Case

Our engineers have gone the extra mile, Danish Design, materials and now increased minimalism.

A thinner case that feels even better, and still provides that same Mil. Std. drop proof safety.

Roadmap iPhone 2022

Product Lineup

Fashion. Design. Protection!

Njord byELEMENTS

Not only the bumper but also the internal panel.

Also the details on the case, such as logo badge and camera ring are made from **GRS Recycled plastics**.

Update

Packaging

Full paper packaging with **GRS Recycled plastic hook**.

Environment

We care about it

NEW Comfort+ Suede & Fabrics

Sustainably produced in Europe, the Comfort+ Suede is made with 38% recycled fibers and is OEKO-TEX certified, a standard that goes further than required by law. The fabrics are either Cradle to Cradle certified, or **made from at least 98% recycled polyester fibers** and carry the EU-Ecolabel and OEKO-TEX.

NEW GRS, Recycled materials

The Global Recycle Standard (GRS) is an international, voluntary, full product standard that sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices and chemical restrictions.

The GRS is intended to meet the needs of companies looking to verify the recycled content of their products (both finished and intermediate) and to verify responsible social, environmental and chemical practices in their production.

33% thinner Optimal, re-engineered Mil. Std. 2m drop proof case.

Minimal Design
Drop Case

Fits like a glove

The Njord iPhone 2022 series Drop Proof cases have been re-designed and re-engineered, resulting in a 33% thinner case - while still achieving 2m Mil. Std. drop proof standards!

Fashion. Design. Protection!

Fashion meets Protection!

This **thin 2m Drop Proof MagSafe** case made from GRS recycled materials features our signature premium Icelandic Salmon Leather, which is produced in Iceland with 0-carbon footprint.

Works with Apple MagSafe, magnetic wireless charging system.

Premium Icelandic Salmon Leather

Our salmon leather, smooth and refined to the touch with a distinguishing appearance, is sustainable, socially responsible and produced environmentally friendly. The leather tannery in Sauðárkrókur (Iceland) embodies our Njorð byELEMENTS DNA and utilizes the country's greatest resources, renewable hydro- and geothermal energy.

This **thin 2m Drop Proof case** made from GRS recycled materials features the beautiful **Tonal** (made from recycled polyester).
Compatible with MagSafe and other wireless chargers.

Tonal
by Gabriel
Denmark

A two-coloured fabric in a playful yet harmonious melange. Distinct lines cross the surface in multiple directions and create a dynamic, lively and vibrant look. The fusion of light and dark tones adds depth and creates an almost three-dimensional effect.
Made from 98% recycled post-consumer polyester, and 100% recyclable.

This **thin 2m Drop Proof case** made from GRS recycled materials features the beautiful **Just** (made from recycled polyester). Compatible with MagSafe and other wireless chargers.

Just
by Gabriel,
Denmark

Inspired by patinated cement structures, Just is distinguished by a slightly irregular surface that gives the fabric its unique character. Just is made from 99% recycled post-consumer polyester, is exquisitely soft to the touch and has a matt, natural look that imitates the exclusive look and feel of natural textile fibres.
